**The Organic Stretch Lightweight** is with 500g per m<sup>2</sup> the lightest of all fabrics and easy to transport & erect with a minimum amount of rigging. It's a slightly translucent adaption of the popular Organic Stretch with its high tensile strength and flexibility.

USD 4,372.00

**The Organic Stretch** at 680g per m<sup>2</sup> a very popular product in the festival industry due to its relatively lightweight but high tensile strength. The original and most flexible of all products rigs easily and sets the standard for all fabrics.

USD 4,690.50

**The TentFlex** at 770g per m<sup>2</sup> has become very popular for semi-permanent installations due to its long-term waterproofing capability even in harsh weather conditions. The fabric is treated with an outer matt Teflon coating ensuring its long term waterproofing and wind stability.

Fire retardant: USD 5,136.50

Non fire retardant: USD 4,690.50

*Prices include all accessories for various configurations of a 54m<sup>2</sup> tent to be pitched in sandy terrain, VAT, delivery in Zanzibar and the first installation.*
